

July 16th, 2020

Dear Bronte Community,

Amid the COVID-19 pandemic, Canada has continued to remain a safe and welcoming country for international students. A recent report has ranked Canada in the top tier 10% of safest countries in the world for COVID-19. Canada is the only North American country to be listed in the top tier of the report.

For more information, [click here to visit our website to read the full COVID-19 Regional Safety Assessment report.](#)

We hope everyone is enjoying the start of the summer and soaking up the warm weather! We have had a couple busy weeks at Bronte College and are excited to share what our staff and students have been up to.

GOVERNMENT UPDATES

- The Ontario government has **extended emergency orders in the province until July 22, 2020**
- **Face coverings are now mandatory** to be worn in public indoor spaces accessible to the public in Mississauga and other Peel Region areas. The by-law has come into effect on July 10, 2020.
- The Ontario government announced **nearly all businesses and public spaces will reopen in Stage 3** of reopening the province on July 17, 2020. At this time, Peel Region, including Mississauga, will remain in Stage 2.

NEW CAMPUS PROTOCOLS

In preparation of Peel Region entering Stage 3 of reopening the province, Bronte College has prepared new campus protocols that will come into effect once Mississauga has been authorized to move into Stage 3.

NEW ONLINE COURSE OPTIONS

To accommodate the needs of students we are implementing the following procedures for the start of the fall semester:

1

Students who can arrive on time to Bronte College will begin classes face-to-face with their teacher starting September 8th. This will follow a two-week quarantine as required at this time by the Government. Students may wish to arrive early to complete their quarantine ahead of classes.

2

Students who are travelling to Bronte College and will arrive later than September 8th, can start their classes through the Online Learning Program and join the class in person by arriving on campus up until December 31, 2020.

3

Students who continue to struggle with border closures and tickets can complete up to one semester through the Online Learning Program where they will have access to recorded class lessons available for download. Students will then start their second semester classes in person.

Students who are taking courses via the Online Learning Program have the option to return back to Bronte for in-class lessons at any time before December 31, 2020. Unless there are restrictions to travel, students do not have to complete the entire first semester online.

RESIDENCE LIFE ACTIVITIES

Our Residence staff have been keeping students busy with fun-filled activities and crafts! A tie-dye event, obstacle course day and game night had students working together while beating the heat in Mississauga.

The obstacle course was a series of challenges, divided into small groups to compete in rounds against one another but still practicing social distancing out on the field. The obstacle course included running, jumping into a hoola-hoop, running with an egg in a spoon and balancing the object and draining a bucket with water using a cup. Students were excited to show off their tie-dye t-shirt designs during the obstacle course event!

On a rainy day, students participated in a potted plant activity where they got to paint a pot and plant their seeds in the Bronte garden or choose to grow a flower plant for their residence room!

Shout-out to our Residence staff for hosting fun and interactive activities for Bronte students, we hope everyone is having fun!

BBQ LUNCH IN THE CAFETERIA

DATES TO REMEMBER IN JULY

21 | Summer School Session 1 Ends

26 | Summer School Session 2 Begins
